The screenshot displays the UNAM (National Nanotechnology Research Center) website. The top navigation bar includes the UNAM logo and the text 'National Nanotechnology Research Center'. On the right, there is a user profile dropdown labeled 'PI UNAM'. The left sidebar contains a list of navigation options: Home, Projects, Create Projects (highlighted with a red box), Reservations, Balance, Update Me, and Password. The main content area is titled 'UNAM USER GUIDELINES' and contains the following text:

UNAM is a shared user facility available to researchers, state enterprises and private sectors all over Turkey and the World.

You can see the list of equipment and their [usage fees](#) on UNAM's facility page.

To benefit from the UNAM facilities, you need to register as a principle investigator (PI), submit a project via UNAM-IS.

Once your project is approved by UNAM you will be able to assign researchers (students, postdoctoral researchers, engineers, technicians) and equipment to the project.

External users (researchers not affiliated with Bilkent University) need to fill out the equipment usage request form and contact the Facility Management ([facility@unam.bilkent.edu.tr](mailto:facility@unam.bilkent.edu.tr) +90 (312) 2908045) to schedule an equipment.

We kindly request you to take a minute to fill out our [satisfaction survey](#) to let us know how we are doing. This is very important for us to improve the service we provide you.

All users are required to follow the safety rules and guidelines of UNAM while they are using the facilities.

○ Select Create Projects option.
